Notice: Update to Business Operating System

Dear Customers,

Please note that Metafore Technologies Inc. (“Metafore”) is in the process of implementing an update to its business operating system, with a target implementation date of February 1, 2012.

Although we have taken great precautions to minimize system disruptions, there is a slight possibility that the February 1st system update will have an impact on our customers. We are doing everything we can to mitigate any risks associated with our upcoming system update and we are confident that customer service will not be adversely impacted.

Thank you for your consideration and please do not hesitate to contact your Metafore representative should you have any questions pertaining to this matter.

Regards,
The Metafore Team
